

# ***CMMS EXPERIMENT***

Larry O'Brien

# ACCOMPLISHMENTS

---

---

- Identified potential information elements to support Warfighter views
- Developed working prototype for capturing operations templates
  - » Captures template information described in JMETL handbook
  - » Provides traceability back to doctrine and UJTL
- Constructed methodology for developing templates
- Provided updates to common data framework

# Information Elements

---

- Organization Types
  - » Organization Type Taxonomy\*
  - » Organization Type Decompositions
  - » Communication Links Between Organizations
- Tasks
  - » Task Decompositions\*
  - » Key Task Attributes\*
  - » Task--Organization Type Assignments\*

\* Addressed in working prototype

# Information Elements

---

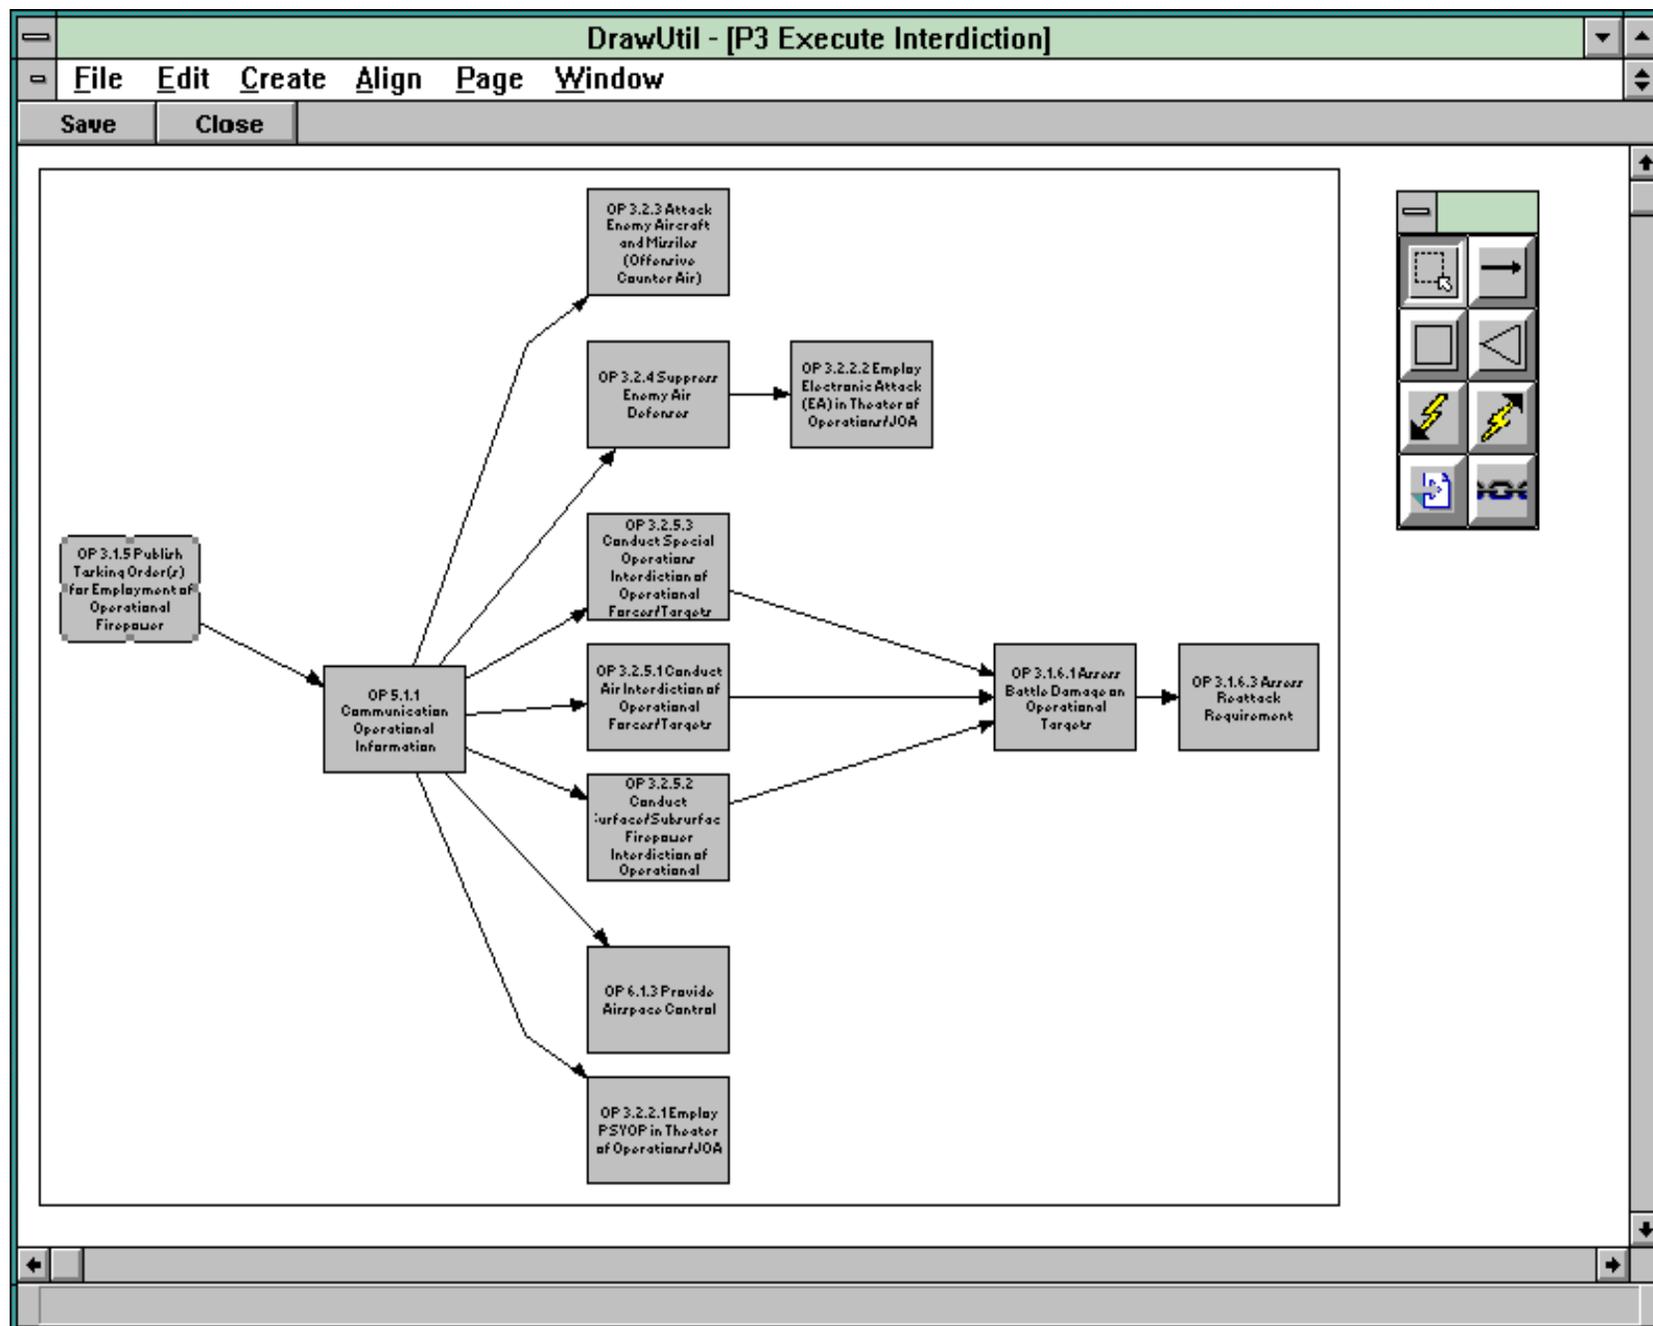

- Operations Templates
  - » Operations Attributes\*
  - » Operations-Task Assignments\*
  - » Task Interactions
    - Temporal\*
    - Spatial
    - Information Flow
